NEW QUESTION: 1

The MAIN advantage of implementing automated password synchronization is that it:

- A. reduces the need for two-factor authentication.
- B. reduces overall administrative workload.
- C. allows passwords to be changed less frequently.
- D. increases security between multi-tier systems.

Answer: B

Explanation:

Automated password synchronization reduces the overall administrative workload of resetting passwords. It does not increase security between multi-tier systems, allow passwords to be changed less frequently or reduce the need for two-factor authentication.

NEW QUESTION: 2

When a CPA reports on audited financial statements prepared on the cash receipts and disbursements basis of accounting, the report should:

- A.** Explain why this basis of accounting is more useful for the readers of this entity's financial statements than GAAP.
- B.** Refer to the note in the financial statements that describes management's responsibility for the financial statements.
- C.** State that the basis of presentation is a comprehensive basis of accounting (OCBOA) other than GAAP.
- D.** Include a separate explanatory paragraph that discusses the justification for, and the CPA's concurrence with, the departure from GAAP.

Answer: C

Explanation:

Explanation/Reference:

Explanation:

Choice "C" is correct. A report on other comprehensive basis of accounting ("OCBOA") financial statements should include an explanatory paragraph stating the basis, referring to the footnote that describes it, and indicating that it is a non-GAAP basis.

Choice "A" is incorrect. A report on other comprehensive basis of accounting ("OCBOA") financial statements does not include an evaluation of the usefulness of the basis of accounting.

Choice "B" is incorrect. A report on other comprehensive basis of accounting ("OCBOA") financial statements makes reference to the note in the financial statements that describes the accounting basis, not to a note describing management's responsibility.

Choice "D" is incorrect. The separate explanatory paragraph states the basis, refers to the footnote describing it, and indicates that it is a non-GAAP basis. It does not discuss the justification for the non-GAAP basis, nor does the CPA indicate concurrence.

NEW QUESTION: 3

Answer:

- D. ã, |ã, §ãf-ã, µã, ðãf^è²çç€€€...

Answer: B

Explanation:

Explanation

Owner : Correct Choice

The Owner role lets you manage everything, including access to resources.

Contributor : Incorrect Choice

With contributor role you can Add deployment slots and View the configuration of App service plan but you can't Modify the role assignment. For this you need User Access Administrator or Owner role. So this is incorrect.

Web Plan Contributor : Incorrect Choice

The Web Plan Contributor role lets you manage the web plans for websites, but not access to them. So this option is incorrect.

Website Contributor : Incorrect Choice

The Website Contributor role lets you manage websites (not web plans), but not access to them. So this is incorrect option.

Note:

As per least privilege principle it is not advisable to provide owner role to any group, rather you should create custom RBAC role with custom policy and use that role for this operation. However as this option is not available here so only option to go with owner role.
