Explanation:

In order to accomplish the task, you will have to insert the following formula in the F2 cell:

=IF(E2>=1200,"Well Done","Improve in Next Quarter")

Incorrect Answers:

A: This will display the wrong messages for the given conditions. The first expression after the logical condition is returned by the IF function when the condition is TRUE.

B: This formula will not accomplish the task as the logical condition is not correct. The specified condition in this formula is testing for values less than or equal to 1200. Whereas, the question's requirement is to evaluate values greater than or equal to 1200.

D: This formula will not accomplish the task because of the two reasons.

First, the equal sign is missing in the condition. Second, the expressions are not in the correct order.
