NEW QUESTION: 2

HOTSPOT

A law firm's wireless network does not use IPv6 and provides IP addresses automatically to connected clients.

A visiting attorney arrives to perform a deposition. The attorney's computer has never connected to the firm's wireless network. The attorney needs general access to several websites but is unable to connect to the Internet.

You collect information from the computer's Device Manager, Network Connections, and Wireless Network Connections.

Device information is shown in the Device Manager exhibit. (Click the Exhibit button.)

Network information is shown in the Network Connections exhibit. (Click the Exhibit button.)

Wireless network information is shown in the Wireless Network Connections exhibit. (Click the Exhibit button.)

You need to configure this attorney's laptop so it can access the Internet through the firm's wireless network.

Consider each of the following statements. Does the information in the three screenshots support the inference as stated? (This question is worth three points.)
