NEW QUESTION: 1

SIMULATION

Fill in the blank with an appropriate phrase. A is defined as any activity that has an effect on defining, designing, building, or executing a task, requirement, or procedure.

Answer:

Explanation:

technical effort

Explanation/Reference:

Explanation: A technical effort is described as any activity, which has an effect on defining, designing, building, or

implementing a task, requirement, or procedure. The technical effort is an element of technical management that is required to progress efficiently and effectively from a business need to the deployment and operation of the system.
