Answer: D

Explanation:

Explanation/Reference:

Explanation:

Introduction to the ICA

The ICA is a Certificate Authority which is an integral part of the Check Point product suite. It is fully compliant with X.509 standards for both certificates and CRLs. See the relevant X.509 and PKI documentation, as well as RFC 2459 standards for more information. You can read more about Check Point and PKI in the R76 VPN Administration Guide.

The ICA is located on the Security Management server. It is created during the installation process, when the Security Management server is configured.
